

The Know Your Limit target is a series of circular target of descending size. The first target is a two inch diameter and the targets gradually get smaller. The last target measures a mere $\frac{1}{4}$ of an inch a totally of 8 target

Shooters start by shooting the largest target and then work their way through The smaller targets, getting points for each successive hit. The kicker is that, although you can stop at any time, If you miss, you lose all your points.
